Amendments to the Specification:

On page 9, please amend the paragraph beginning at line 14 as follows:

ai The worksheet stage 10 displays a worksheet that allows the customer to start to build or configure an order. The worksheet (see Figure [[15]] 16) is a table containing lines and columns. Two columns are empty fields for entering SKUs and quantities. The other columns are completed automatically by the system after entry of the SKUs. The worksheet is "built" or "configured" by filling in the blank fields with the desired products.
